

# TEXAS INTERNATIONAL TERMINALS – BULK STORAGE FACILITY (2008)

Sullivan Land Services was hired by Texas International Terminals to design and construct an 80,000 sq.ft. bulk storage facility, one of the largest turn-key bulk storage facilities on the Gulf Coast. The building contains multiple 48” overhead conveyors and can accommodate up to 80,000 tons of material.

## PROJECT SUMMARY

- Designed and constructed 80,000 sq.ft. bulk storage facility
- One of the largest turn-key bulk storage facilities on the Gulf Coast.

The above are highlights of recent projects. A more comprehensive list of company projects is available upon request. References for the aforementioned projects, as well as general company, financial, insurance and bonding references are also available upon request.
